

Thompson Public Schools "Tools for Schools" Indoor Air Quality

Bulletin # 3, May 2005

JoAnn Thorstenson

RADON

In conjunction with the
**Northeast District Dept
of Health** and the **CT
Dept of Health.**

TESTING COMPLETED

Please see the attached
letter from Dr. Siminski,
Superintendent of
Schools.

At our meeting held on April 11th, our committee, which is currently comprised of School Administrators, Health Personnel, Custodial Staff, Transportation Staff, Educators and Parents, discussed opportunities available to us to further our *Indoor Air Quality* program.

The most exciting idea is to involve our student body. We will have a member of our committee meet with staff at each of our three schools to let our students know, at the appropriate grade levels, how they can help make their school environment a healthier place.

TAKE PRIDE IN YOUR
SCHOOL!

YOU REALLY CAN
MAKE A DIFFERENCE!
