**Informal Persuasive Speech**

Public Speaking

Ten Eyck

For your **second** speech this semester, you will give an **informal persuasive speech**. What makes this speech informal is that the topic you will persuade your audience about is a personal one, as opposed to one concerning the general population. Topics should be about favorite local restaurants, local sports, clothing styles, best breed of dog to own, etc. and **why** you feel this way.

This speech could draw heavily from the pet peeves or things that you love that you have spoken about already if you would like. The main difference is that you must persuade your audience to agree with your opinion. That means clearly identifying your opinion, and using specific details to support your argument.

An outline and a visual aid are mandatory on the **due date of Wednesday, 2/10/10**. 3-5 minutes in length.
