Yourself Speech

Public Speaking

Ten Eyck

For your first informal speech you will be speaking about a topic you are very familiar with: yourself. Your speech is to be from 3-5 minutes in length and should cover anything you wish to/are able to share with the class. Some information may be fictional. Refer to the list of things about yourself that you made in class to help you.

You will have one day to see an example of planning an informal speech outline, and time to work on your own outline. The second preparation day you will see an example speech with a sample visual aid.

Your outline is due at the beginning of class on Thursday; that day speeches will begin. Speeches will be recorded.

**Sample grading rubric on board**
